Sharepoint delivery team ran very well upon team collaboration and cooperation. Many of task related to sharepoint dashboard were rectified and some new features were successfully developed and integrated into the platform. Also, One Click window application solely developed for service team few years ago are successfully adjusted to adapt the environmental changes especially framework versioning issue. Overall, Sharepoint delivery team are inclined in support job which is imperative for clients and team growth would be more significant if development task is aligned the same and more value to be expected integrated to our platform and enrich customer experience.
